PS/O - 136/64
1 May 1964

MEMORANDUM TO: Assistant for Plans and Development, NPIC

ATTENTION :

FROM : Chief, CIA/PID (NPIC)

SUBJECT : Request for Installation of Communications Link
Between PID and the First and Third Floor Film
Vaults.

REFERENCE : Memorandum PS - 112/64

1. Investigations made subsequent to the referenced memorandum has brought forth certain problems inherent in the type of remote-writing equipment originally requested for temporary installation and evaluation. As a consequence, evaluation and recommended procurement action for this type of equipment is no longer desired.

2. In discussions with [] of your staff, it has been determined that the equipment most suitable and easiest to adapt for the expediting of film orders is the Teletype unit. It is requested, therefore, that Teletype units be installed in PID and the First and Third floor film vaults with the units interconnected. It should be considered that future links will be made to these and other stations through the Univac 490 as programming permits.

ENCLOSURE: Memorandum PS

DISTRIBUTION:

Orig & 1 - Addressee
1 - OSS Subject
1 - OSS Chrono
1 - PS Chrono
